advices, I believe, to young men—and to all men—are very seldom much valued. There is a great deal of advising and very little faithful performing. And talk that does not end in any kind of action is better suppressed altogether. I would not therefore go much into advising; but there is one advice I must give you. It is, in fact, the summary of all advices, and you have heard it a thousand times, I dare say; but I must, nevertheless, let you hear it the thousand and first time, *for it is most intensely true*, whether you will believe it at present or not—namely, that above all things the interest of your own life depends upon BEING DILIGENT NOW, WHILE IT IS CALLED TO-DAY, in this place where you have come to get education.

advices, I believe, to young men—and to all men—are seldom much valued. There is a great deal of advising and very little faithful performing. And talk that does not end in any kind of action is better suppressed altogether. I would not therefore go much into advising; but there is one advice I must give you. It is, in fact, the summary of all advices, and you have heard it a thousand times, I dare say; but I must, nevertheless, let you hear it the thousand and first time, *for it is most intensely true*, whether you will believe it at present or not—namely, that above all things the interest of your own life depends upon BEING DILIGENT NOW, WHILE IT IS CALLED TO-DAY, in this place where you have come to get education.

Diligent! That includes all virtues in it that a student can have; I mean to include in it all qualities that lead into the acquirement of real instruction and improvement in such a place. If you will believe me, you who are young, yours is the *golden season of life*.

GUIDE AND SCREEN GAUGE

Letter-Press Printing is all done from surfaces which are engraved in relief. The ink being applied to the relief surfaces and transferred—by impression—to the paper. The originals are engraved by hand or mechanical processes on some hard, durable substance with a surface that is absolutely smooth and level. The parts which are not wanted to print being cut or etched away. The materials generally used are copper, zinc, brass, type metal (a composition of zinc, lead and antimony) and wood.

HOW TO ORDER ENGRAVINGS

In ordering engravings care should be taken to be specific. Mark copy plainly—one dimension only—either height or width—you wish the finished plate to be. Both dimensions can only be given when the rules of proportion are fully understood. If engraving is to fit specified space mark copy "not to exceed 2 x 4 (or whatever the measurements of the space.)" Bear in mind—that to get best results—the kind of engraving must be ordered to suit the grade and finish of the stock to be printed.

VARIOUS STYLES OF FINISH

Unless specifically ordered otherwise, half-tones will be finished "square cut with line border" (see Nos. 6—7—10—11). If wanted without border—mark "square cut—no line" (5—8—9—12). If the back-ground is to be cut away—mark "close-cut" or "silhouette" (14). If a shaded or "fade-away" background is wanted—mark "vignette" (15). To produce contrast plates — mark "hand tool background or whites" or both (13).

UNDERSCORING

In underlining words or lines for emphasis the following method is used.

(a) Matter underlined once is to be set in italic.
Earth could not answer; nor the seas that mourn.

(b) Matter underlined twice is to be set in small capitals.
There was the door to which I found no key.

(c) Matter underlined three times is to be set in capitals.
A lamp amid the darkness.

(d) Four lines under matter indicate italic caps.
Would you that spangle of existence spend?

(e) A single wave line under matter indicates bold-face type.
Waste not your hour!

(f) Two wave lines indicate bold-face capitals.
One thing at least is certain—this life flies.

(g) One plain line and one wave line stand for bold-face italic.
We know not when we go nor where.
